perspectives in sociology provides students with a lively and critical introduction to sociology and to the ways in which sociologists are trained to think and work the subject is presented as a sequence of different perspectives on the social world all of them interrelated sometimes in conflict with one another and all contributing important and necessary insights the discussion is backed up by extensive reference to empirical studies this edition has been completely revised a chapter on critical theory has been added in order to reflect the extensive work and thinking that marx s basic work continues to stimulate the chapter on research strategies now takes account of new developments in the philosophy of science that are relevant for sociological approaches throughout the authors have rewritten extensively in their continuing desire to produce clarity and to respond to the comments of students and teachers

from its first edition in 1979 perspectives in sociology has provided generations of undergraduates with a clear reassuring introduction to the complications of sociological theory this revised and updated edition features a completely rewritten general introduction and conclusion all new introductions to each part clarifying how each one builds on what came before an updated set of formative questions at the end of

each chapter a comprehensive glossary of key terms while retaining its emphasis and wealth of information on the founding figures of sociology this sixth edition includes new tools that will allow students from related disciplines to access relevant sociological material quickly

in an era when rapid social change the disappearance of traditional communities the rise of political populism and the threat posed by radical religious movements makes it appear that all that is solid melts into air the classical sociological problem of how peaceable societies can be created and maintained assumes renewed urgency uncovering social life critical perspectives from sociology explores how contemporary institutional changes erode existing social relationships and identities but also create space for opposition to or creative adaptation of these broader shifts exploring the threats and opportunities associated with the contemporary age this book identifies how sociology helps us understand the problems associated with social order and change before focusing on the most important institutional transformations to have occurred in bodies and health sex gender and sexuality employment finance the internet and new social media technology and artificial intelligence religion governance and terrorism after a critical introduction placing these issues in their historical and sociological context theoretical chapters analysing how sociology views the individual society relationship and the volatile processes endemic to the modern era provide an innovative and comprehensive context for these explorations this book provides a clear and engaging account of social life covering a broad range of sociological topics the diverse chapters are united in a concern with three major themes the growing complexity of the current era and the doubled identities with which it is associated the opportunities and constraints such developments pose to different groups and the capacity of institutional changes to both erode existing social relationships and create space for the emergence of new collective identities that oppose these structural shifts

seeing society offers an eclectic and comprehensive approach to sociological concepts and principles it shows how social organization affects social behaviour and identity classic statements concerning the nature of social life are balanced with contemporary selections which examine salient sociological issues and controversies

seminar paper from the year 2021 in the subject sociology war and peace military grade 1 0 helmut schmidt university university of the federal armed forces hamburg course wissenschaftstheorie und methodologie sociological perspectives on education language english abstract this thesis and the question how the reality in germany is related to military education within society will be answered in this term paper with the background of the consequences of the second world war on the view of an army of the german population and the bad acceptance of the bundeswehr in the society the view of a military education is a different one compared to the u s for example unlike in the u s where military education is partially integrated into the school system in germany military education is only provided by the military itself or in small private settings the aim of this term paper is to find out what is the meaning of military education in german society in functionalist perspective education must teach people self discipline education is essential if society is to remain orderly these pedagogical findings of Èmile durkheim studies

haven't lost their relevance in our present time when it comes to the question of the meaning and importance of education in our society these aspects self discipline and order are especially determine in the principles that represent soldiers in the military this connection should give rise to drawing parallels between military education in a functionalist perspective and the understanding and implementation of it in german society from the functionalist perspective of durkheim the aim of education in a society is to produce ideal adults in order that to ensure the overriding goal specifically the functioning and survival of society can the values and virtues that can be imparted by a military education and that constitute and should be represented by a german soldier lead the way to the aim of an ideal adult described by durkheim

this book explores the view that normative behaviour is part of a complex of social mechanisms processes and narratives that are constantly shifting from this perspective norms are not a kind of self contained social object or fact but rather an interplay of many things that we label as norms when we take a snapshot of them at a particular instant further this book pursues the hypothesis that considering the dynamic aspects of these phenomena sheds new light on them the sort of issues that this perspective opens to exploration include of what is this complex we call a social norm composed of how do new social norms emerge and what kind of circumstances might facilitate such an appearance how context specific are the norms and patterns of normative behaviour that arise how do the cognitive and the social aspects of norms interact over time how do expectations beliefs and individual rationality interact with social norm complexes to effect behaviour how does our social embeddedness relate to social constraint upon behaviour how might the socio cognitive complexes that we call norms be usefully researched
